Education

Institute of Technology of Cambodia	Phnom Penh, Cambodia
B.Eng. Applied Mathematics & Statistics (Data Science)	Expected 2027
Year 3 GPA: 4.00 / 4.00	

Experience

Data Visualization for Library Resources & Attendance	Aug 2024 – Sep 2024
<i>ITC Library, Informal Internship</i>	Phnom Penh, Cambodia
- Analyzed borrowing and room-booking data from multiple departments using Python and Jupyter Notebook. - Reported findings and insights to the Head of Library to support data-driven decision-making.	

Projects

Sao Somleng Game — Khmer Voice Learning Game	2026
<i>Python, FastAPI, PyTorch, Wav2Vec2, React</i>	
- Developed a voice-controlled Khmer learning game for children to practice character pronunciation. - Fine-tuned Wav2Vec2 models and integrated continuous-play mode with performance tracking.	
Loan Default Risk Analysis and Prediction	2026
<i>Python, Pandas, Scikit-learn, Streamlit, Power BI, Jupyter Notebook</i>	
- Built an end-to-end credit risk pipeline to analyze loan applicant data and predict default likelihood. - Applied feature engineering and Random Forest classification; delivered a Streamlit app and Power BI dashboard for interactive risk analysis.	
Customer Retention & Churn Analysis Dashboard	2026
<i>Power BI, Power Query, DAX, Excel</i>	
- Built a 3-page interactive Power BI dashboard to analyze churn, retention rate, and behavior patterns across 5,630 e-commerce customers. - Cleaned data in Power Query, handled missing values, and authored DAX measures for churn and retention KPIs.	
Automatic License Plate Recognition in Cambodia (ALPRC)	2025
<i>Python, YOLOv8, PaddleOCR, EasyOCR, Roboflow, Flask</i>	
- Developed a system for detecting and recognizing Cambodian vehicle license plates. - Applied YOLOv8 for plate detection and compared PaddleOCR and EasyOCR for text extraction accuracy.	

Technical Skills

Languages	Python, R, SQL, Java, C, C++
Data Science/ML	Pandas, Scikit-learn, TensorFlow/Keras, PySpark, Data Analysis, Machine Learning, Deep Learning
Visualization	Power BI, Microsoft Excel, Matplotlib, Jupyter Notebook
Databases	MySQL, PostgreSQL, MongoDB
Tools	GitHub, VS Code, MySQL Workbench, Code::Blocks

Languages

Khmer (Native) · English (Intermediate)
