EDUCATION

Institute of Technology of Cambodia

Phnom Penh, Cambodia

B.Eng. Applied Mathematics & Statistics (Data Science)

Expected 2027

Year 3 GPA: 4.00/4.00

EXPERIENCE

Data Visualization for Library Resources and Attendance using Python

Aug 2024 – Sep 2024

ITC Library, Informal Internship

Phnom Penh, Cambodia

- Analyzed borrowing and room booking data from multiple departments using Python and Jupyter Notebook.
- Reported findings and insights to the Head of Library to support decision-making.

PROJECTS

Sao Somleng Game - Khmer Voice Game

2026

Python, FastAPI, PyTorch, Wav2Vec2, React

- Developed a voice-controlled Khmer learning game for children to practice character pronunciation.
- Fine-tuned Wav2Vec2 models and added continuous play with performance tracking.

Loan Default Risk Analysis and Prediction

2026

Python, Pandas, Scikit-learn, Streamlit, Power BI, Jupyter Notebook

- Built an end-to-end credit risk project to analyze loan applicant data and predict whether a borrower is likely to default.
- Performed data cleaning, feature engineering, and Random Forest classification, and created a Streamlit app and Power BI dashboard for risk analysis.

Customer Retention & Churn Analysis Dashboard

2026

Power BI, Power Query, DAX, Excel

- Built a 3-page interactive Power BI dashboard to analyze customer churn, retention rate, customer profiles, and behavior patterns from 5,630 e-commerce customers.
- Cleaned data in Power Query, handled missing values, standardized categories, and created DAX measures for churn and retention analysis.

Automatic License Plate Recognition in Cambodia (ALPRC)

2025

Python, YOLOv8, OCR, PaddleOCR, EasyOCR, Roboflow, Flask

- Developed a system for detecting and recognizing Cambodian vehicle license plates.
- Applied YOLOv8 and OCR techniques for plate detection and text extraction.

Library Management System

2025

Django, Python, MySQL, HTML, CSS, JavaScript

- Developed a web-based system for managing books, users, borrowing, returns, fines, and reports.
- Improved library work by changing manual tasks into a digital system.

TECHNICAL SKILLS

Languages: Python, R, SQL, Java, C, C++

Data Science/ML: Pandas, Scikit-learn, TensorFlow/Keras, PySpark, Data Analysis, Machine Learning, Deep Learning

Visualization: Power BI, Microsoft Excel, Matplotlib, Jupyter Notebook

Databases: MySQL, PostgreSQL, MongoDB

Tools: GitHub, VS Code, MySQL Workbench, Code::Blocks

LANGUAGES

Khmer (Native), English (Intermediate)
